Education

University of Toronto
Sep 2015 – May 2019

- Bachelor of Applied Science in Engineering Science
- Cumulative GPA: 3.99/4.00
- Relevant Coursework: Data Structures and Algorithms, Digital Logic
- Extracurricular Coursework: Applied Data Science, Introductory Machine Learning Algorithms, Data Visualization

Experience

Intelligent Sensory Microsystems Lab
May 2016 – Aug 2016
Toronto, Ontario

Product Development Researcher

- Worked in a team in the research and development of a wearable biomedical device for performance testing using an Arduino.
- Collected and analyzed sensor serial data using machine learning and data visualization algorithms in Python.
- Developed a web framework to share the locally collected data online using node.js.

IEEE UofT Branch
Sept 2016 – May 2017
Toronto, Ontario

Hardware Technologist

- Tested, built, and provided feedback on various electrical circuits.
- Acted as a mentor during electronics workshops and events.

Dynamic Graphics Project
May 2017 – Aug 2017
Toronto, Ontario

Software Developer

- Calibrated and debugged camera/projector setups using the OpenCV library in C++.
- Used image projection and analysis algorithms to differentiate between direct and indirect light sources on a scene.
- Developed structured light imaging functions to calculate object depth in a scene.

Projects

Ad Data Visualization
C#

- Augmented reality visualization of provided advertising data developed using C#.
- Predictive model for advertising hits generated using a neural network.

Tuberculosis Analysis
Python

- Trends between tuberculosis incidence and human development factors investigated and visualized in an animated plot.

AI Pong
Python

- Script that acts as the logical intelligence of a computer player in Pong.
- Instantaneous reaction to player motion and random backspin generation.

Awards and Accomplishments

- 4x University of Toronto Dean's List
- NSERC Computer Science Undergraduate Student Research Award (USRA) recipient
- MLH Anti-Harassment Hack Award, 3rd Place HackWithIX

Skills

Proficient in: Python, HTML, CSS, Microsoft Office

Experience with: MATLAB, C, C++, C#, Javascript (node.js), SQL

Libraries: pandas, numpy, scipy, scikit-learn, matplotlib, OpenCV
